ABOUT SPGC

Overview

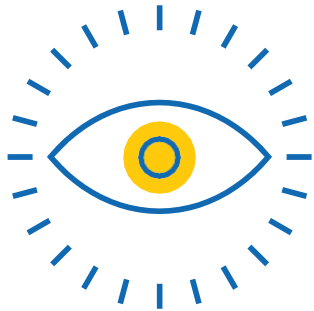

SPGC The Company was founded in 2010 as a sub-contractor for construction of parks and roads.

Our company name is respected in the Kingdom of Saudi Arabia since its foundation for its adherence to strong values, high business ethics, and professional results.

The company started its operations in the construction of parks and roads and developed over time through various business sectors and other infrastructure projects.

VISION

TO LEAD

THE CONSTRUCTION INDUSTRY ACROSS THE MENA REGION

while building & sustaining our reputation of long-term

**TRUSTED RELATIONSHIPS, INNOVATING
SOLUTIONS, AND EXCEEDING CLIENT
EXPECTATIONS**

CORE VALUES

PEOPLE

We hold the fundamental belief that our greatest asset is our people, and we are dedicated to fostering a culture of respect, empowerment, and continuous growth, because we recognize that our success is intricately tied to the talent and dedication of our team members.

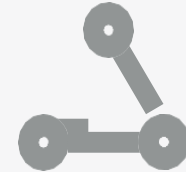

SAFETY

Safety is at the core of our company's values, and we are unwavering in our commitment to ensuring the well-being of our people, subcontractors, partners, suppliers, and clients.

EXCELLENCE

We are driven by an unwavering commitment to excellence, consistently pushing the boundaries of innovation, quality, and service to deliver unparalleled value to our clients and stakeholders.

INTEGRITY

Integrity is the cornerstone of our company's foundation, and we are dedicated to upholding the highest ethical standards in all our endeavors, fostering trust, and honesty in every interaction with our valued partners, customers, and employees.

Message from GENERAL MANAGER

Welcome to Skilled Professionals Contracting Company, a leading infrastructure construction company in the Kingdom of Saudi Arabia. Skilled Professionals is a member of Skyline Industries, UAE, which has a diverse business in Saudi Arabia, UAE and South Asia.

Since the Company's establishment, we have always committed ourselves to deliver the highest quality and achieve a total client satisfaction through world-class professional standards and efficiency. This commitment has helped our Company to evolve as a leader in its respective business specialization.

Through it all, Skilled Professionals has consistently built a reputation for quality work and timely delivery, which have earned us the admiration and satisfaction of our clients.

With our growing resources and expanding activities, Skilled Professionals continue to grow as leading force in the infrastructure developments in the Kingdom.

GOVERNANCE

SPGC's management considers Governance as the fundamental factor for success. Accordingly, SPGC established the Corporate Governance Office (CGO) as part of the new business model resulted from the strategic transformation program to strengthen the corporate governance and excellence at different areas and levels.

The CGO reports directly to the General Manager and maintains its independence from the other business or commercial operations.

The CGO is responsible to control, maintain and support other functions to adhere to the entire governance activities. CGO creates, improves, and sustains the organizational framework including processes, procedures, and templates required to respond to the multiple governance needs of the business and operations. CGO also provides comprehensive performance reports to the top management.

Along with these controlling responsibilities, CGO is also responsible for delivery management of strategic initiatives identified by the CEO and senior management.

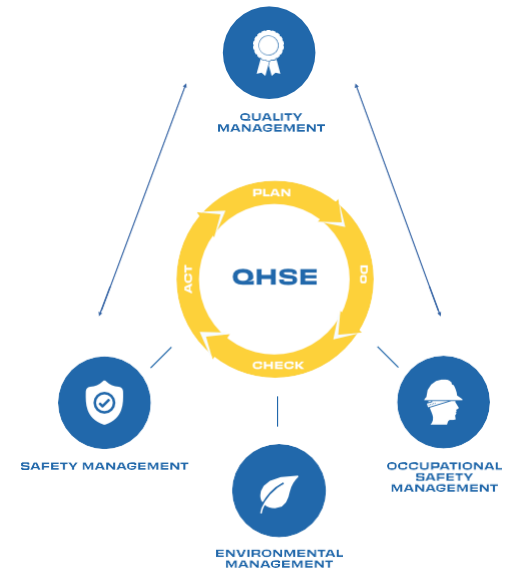

QHSE

QHSE is the enterprise entity that establishes, governs, and manages Quality, Health, Safety & Environment systems. QHSE offers enterprise services across all functions and to all levels from the project's sites, Corporate HQ and all related facilities. QHSE is the ultimate owner of Corporate Quality and Safety Management System (QHMS) and the safeguard on all business and operational systems and processes.

Core services of CGO – QHSE are:

- QHSE acts as an independent body in front of the clients and other stakeholders.
- Develops, maintains, governs and continuously improves Projects Quality Assurance Framework.
- Develops, maintains, governs and continuously improve Integrated Management System (IMS).
- Develops and maintains internal/ external Quality Audit System (aligned with internal Audit System).
- Participates and support all ongoing an new projects and bids for all QHSE matters.
- Introduces and encourage QHSE culture and knowledge.
- Participates and supports clients Pre-Qualifications, Suppliers/ Subcontractors Qualifications.
- Establishes and Leads Business Process development and Control & Improvement system.
- Is the documents hub (Center) for all important corporate documents and records.
